

MAKE YOUR OWN COOL PLAY SET! Fire trucks from the old days

- 1 put ladder base together and insert yellow posts through hole in back of truck. Make sure the yellow posts go through the centre of the green circle lock. spread posts and glue to the green lock do not get glue on the back of the lock or it will not turn.
- 2 Assemble and glue truck body together.
- 3 fold the fenders into place and stick the green tab through the tab hole (circled in green). fold the green tab inside and glue to body of the fire truck.
- 4 insert the body green tabs through the tab holes in the underbody. Next fold and glue the green tabs underneath.
- 5 Assemble ladder top and bottom make sure to only put glue on the sides of the ladder top so that the ladder extension can move freely in and out.
- 6 Attach the ladder sway bars and the cherry light.
